

# $\alpha$ Pav (Peacock) - all sectors

B2IV,  $V = 1.94$ , variability class: SPB, high-pass filter width = 15 d

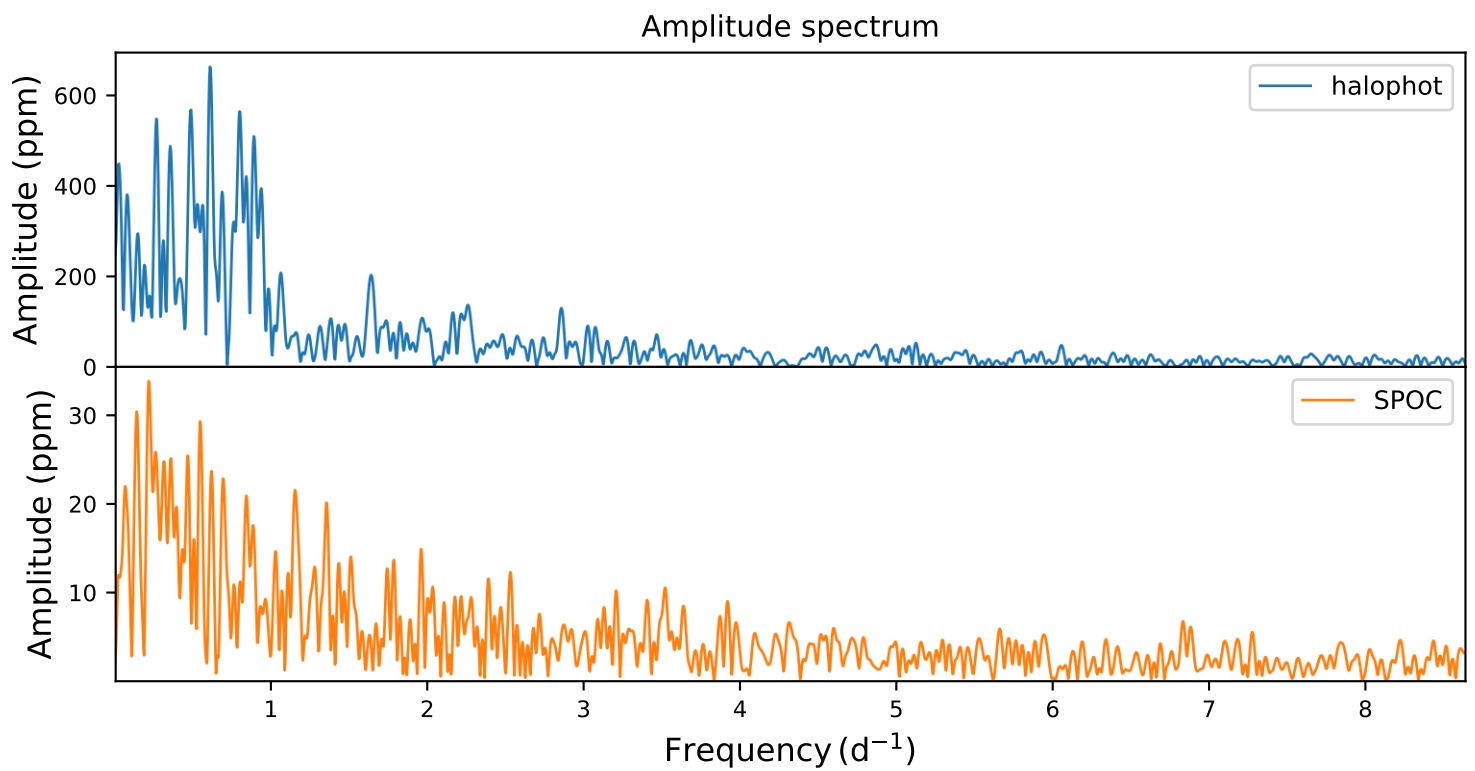

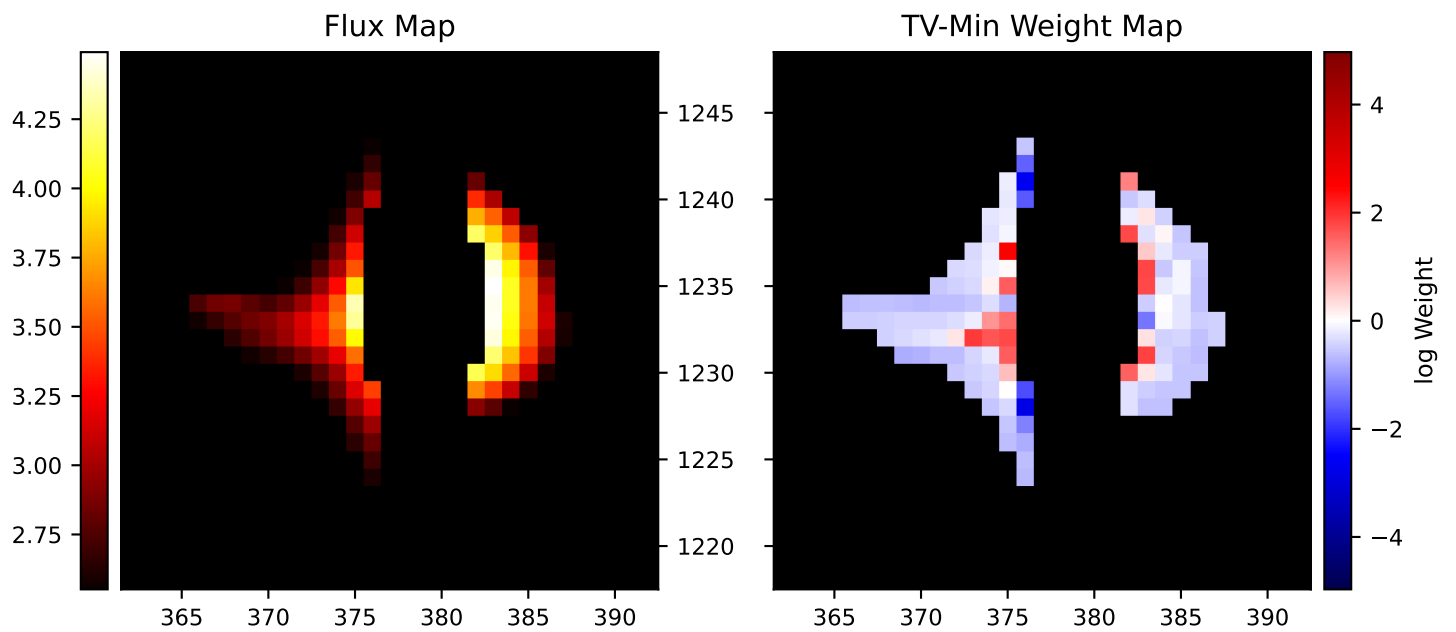

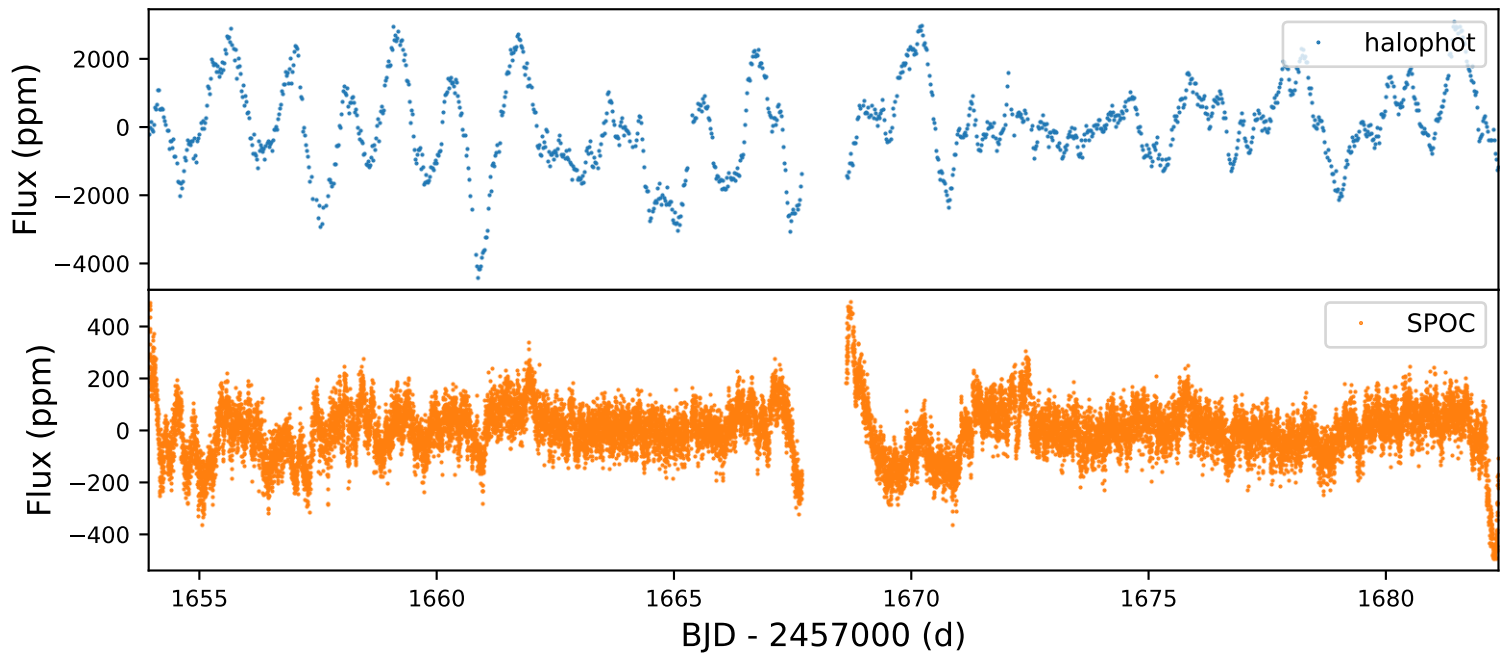

## Amplitude Spectrum

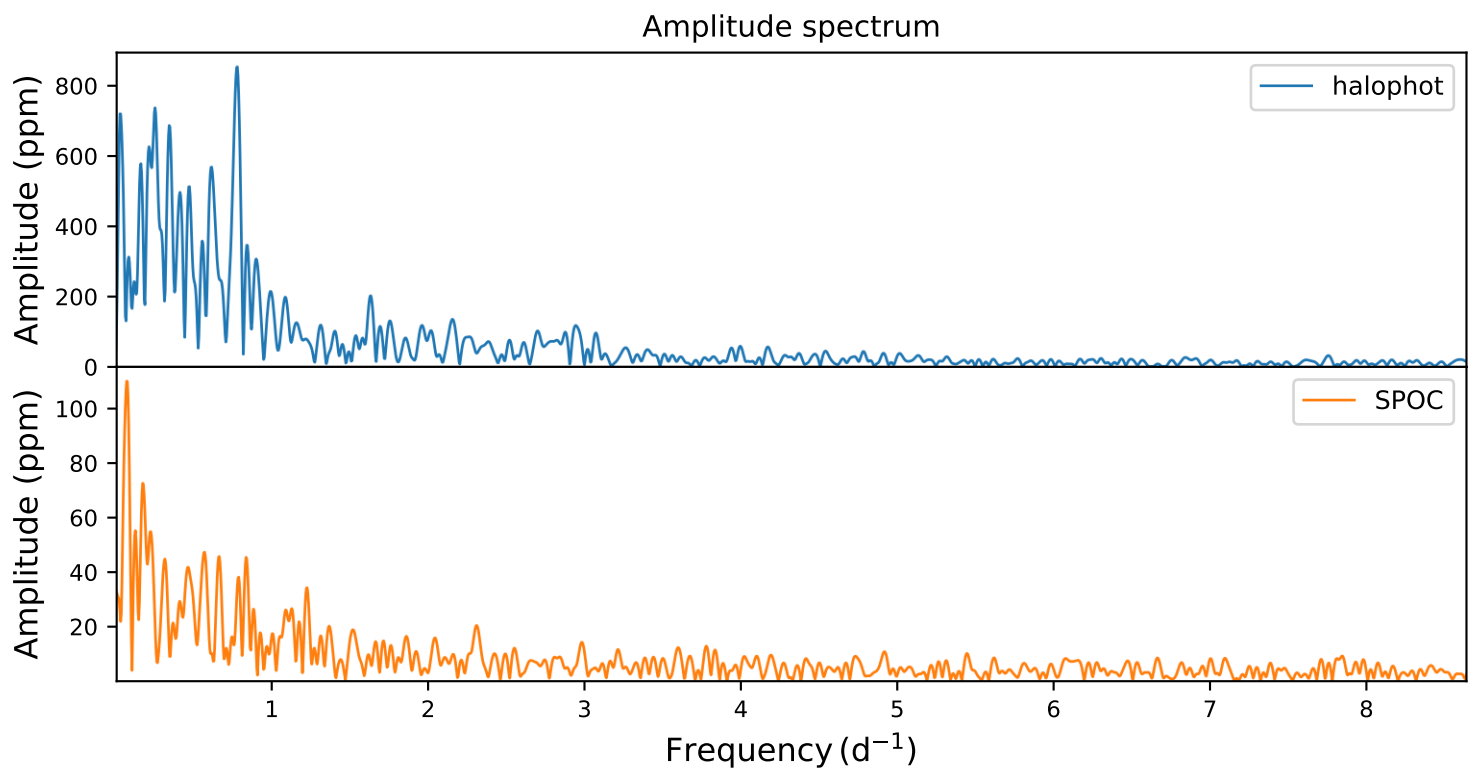

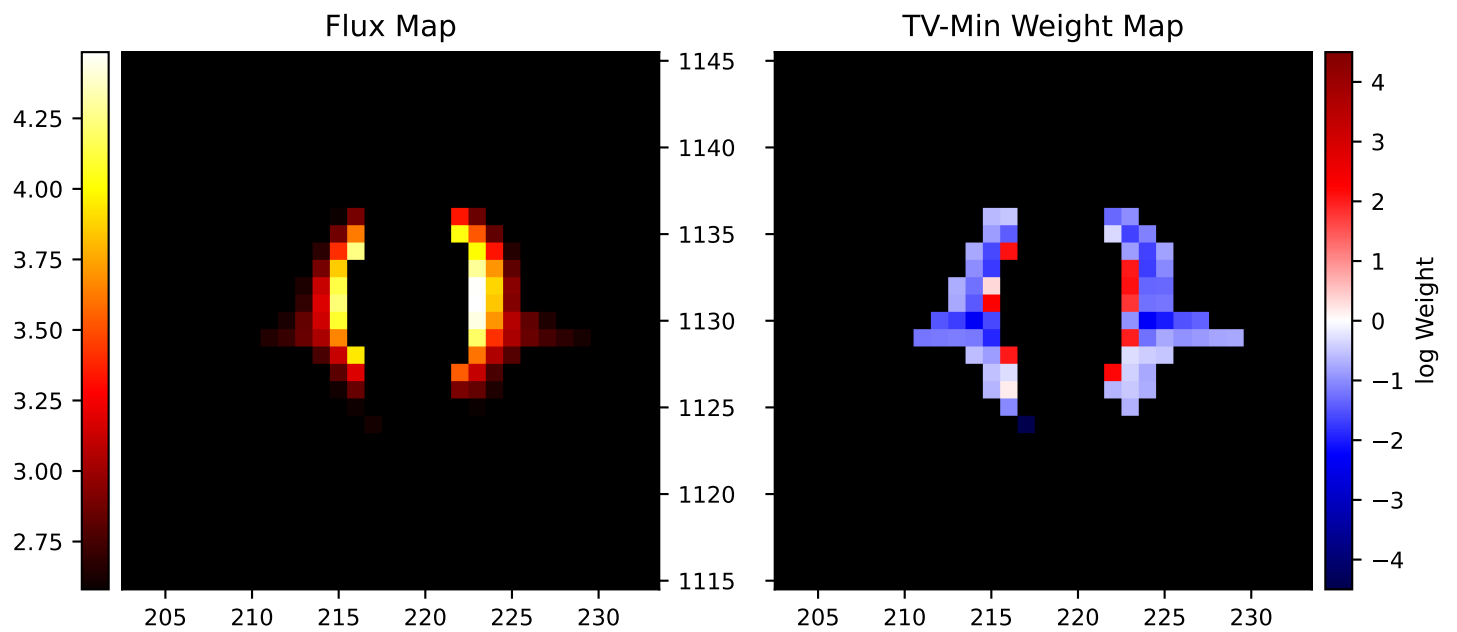

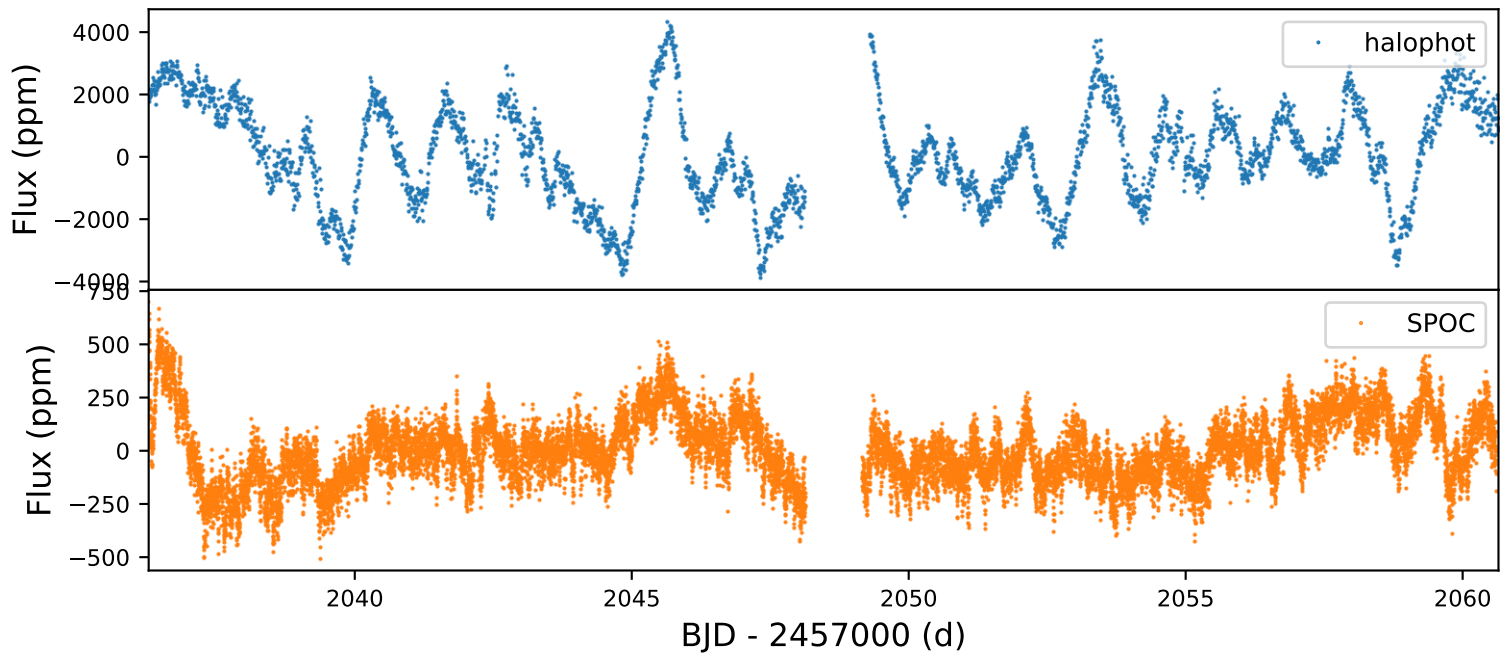

# $\alpha$ Pav (Peacock) - Sector 13

Light curve quality: halophot = high, pipeline = low

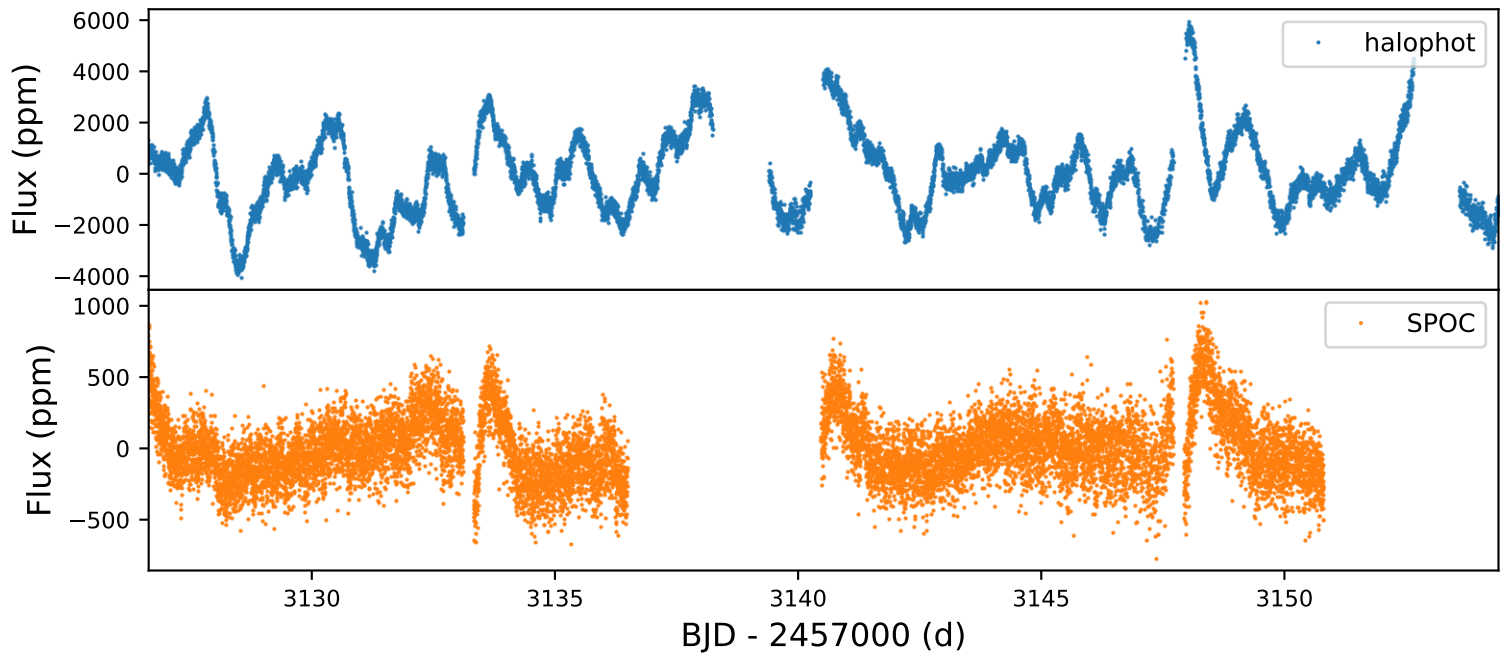

# $\alpha$ Pav (Peacock) - Sector 27

Light curve quality: halophot = high, pipeline = low

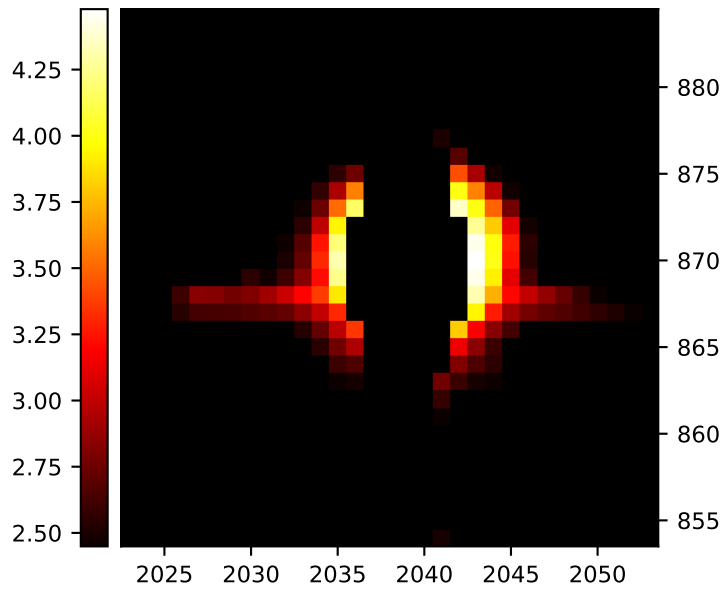

# $\alpha$ Pav (Peacock) - Sector 67

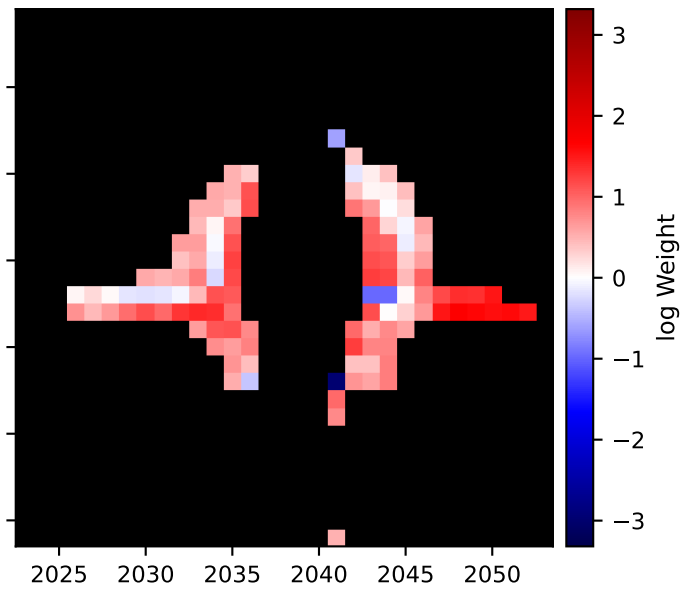

Light curve quality: halophot = high, pipeline = low
