

γ Cru (Gacrux) - all sectors

M3.5III, $V = 1.59$, variability class: LPV, high-pass filter width = 30 d

Power Spectral Density

γ Cru (Gacrux) - Sector 11

Light curve quality: halophot = high, pipeline = low

Flux Map

TV-Min Weight Map

PSD

γ Cru (Gacrux) - Sector 37

Light curve quality: halophot = high, pipeline = low

PSD

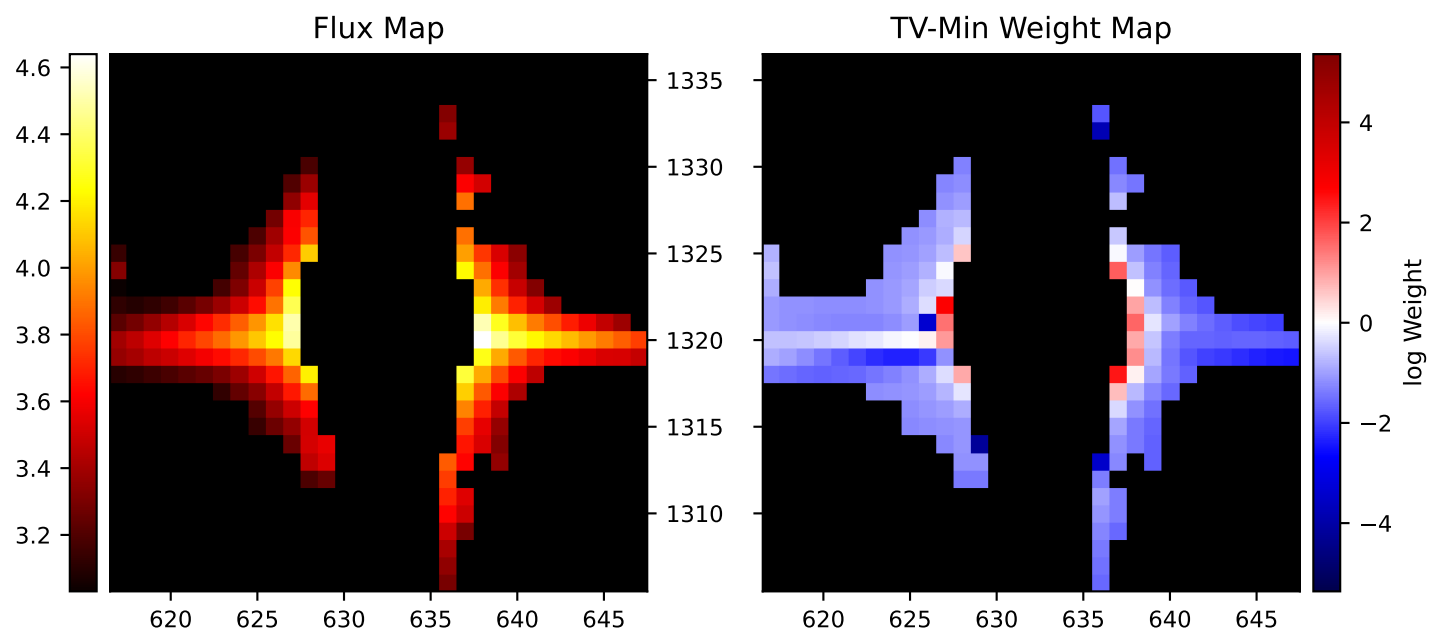

γ Cru (Gacrux) - Sector 38

Light curve quality: halophot = high, pipeline = low

γ Cru (Gacrux) - Sector 64

Light curve quality: halophot = low, pipeline = low
