

θ Cen (Menkent) - all sectors

K0-IIIb, $V = 2.06$, variability class: RG, high-pass filter width = 1 d

Power Spectral Density

θ Cen (Menkent) - Sector 11

Light curve quality: halophot = high, pipeline = low

θ Cen (Menkent) - Sector 38

Light curve quality: halophot = high, pipeline = low

θ Cen (Menkent) - Sector 64

Light curve quality: halophot = high, pipeline = low
