

# $\theta$ Sco (Sargas) - all sectors

F1II,  $V = 1.86$ , variability class: RG/SLF, high-pass filter width = 30 d

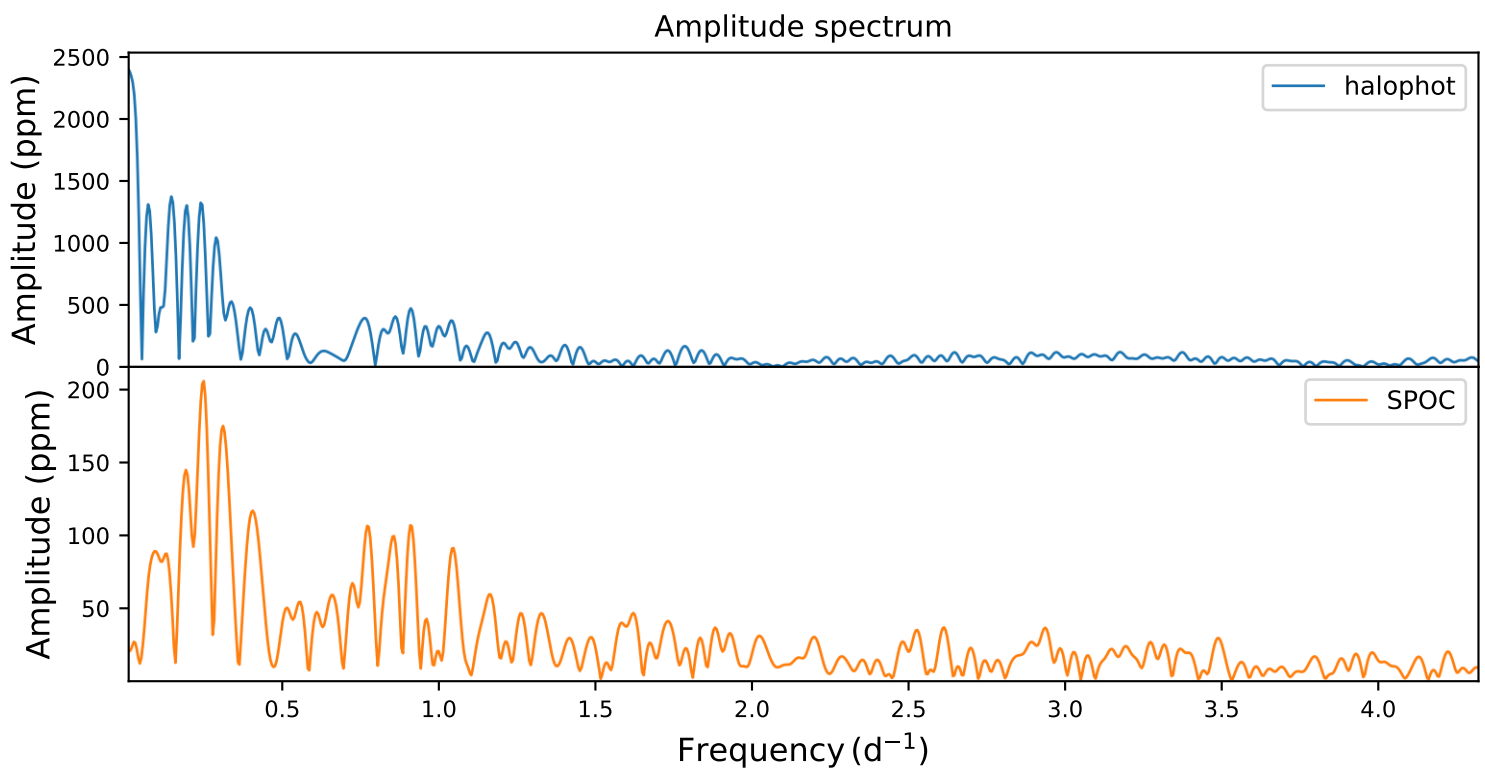

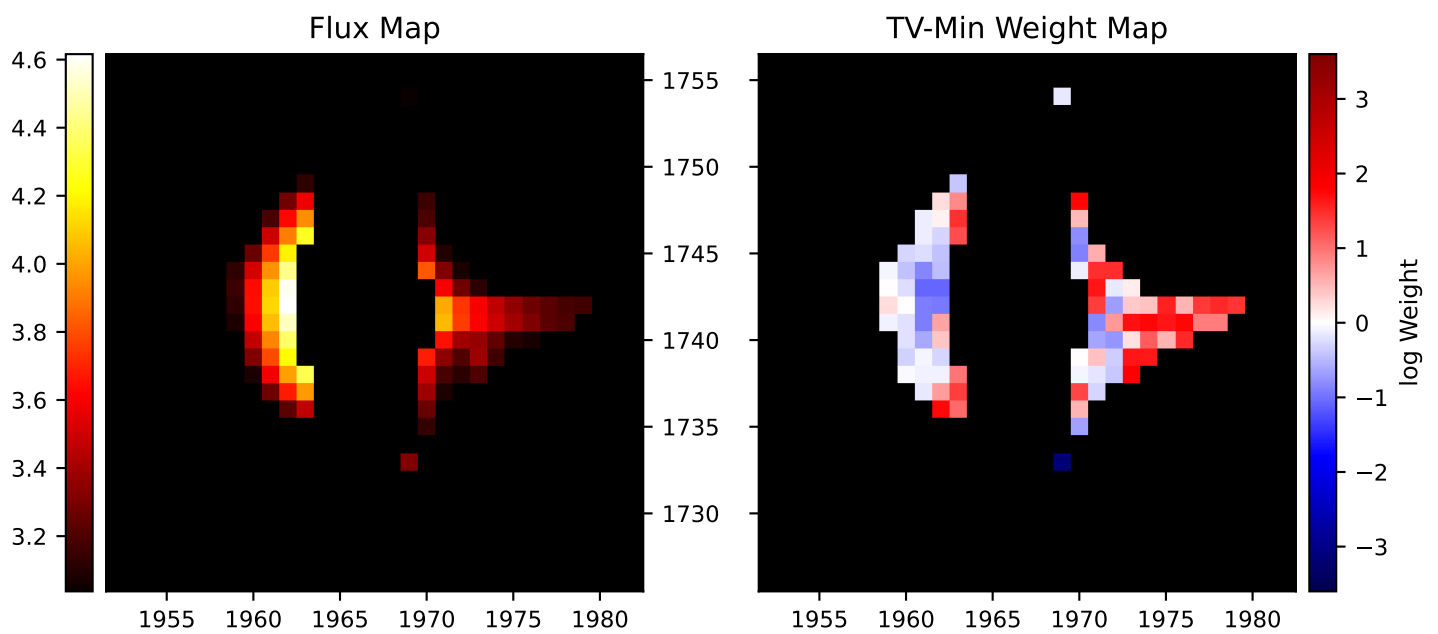

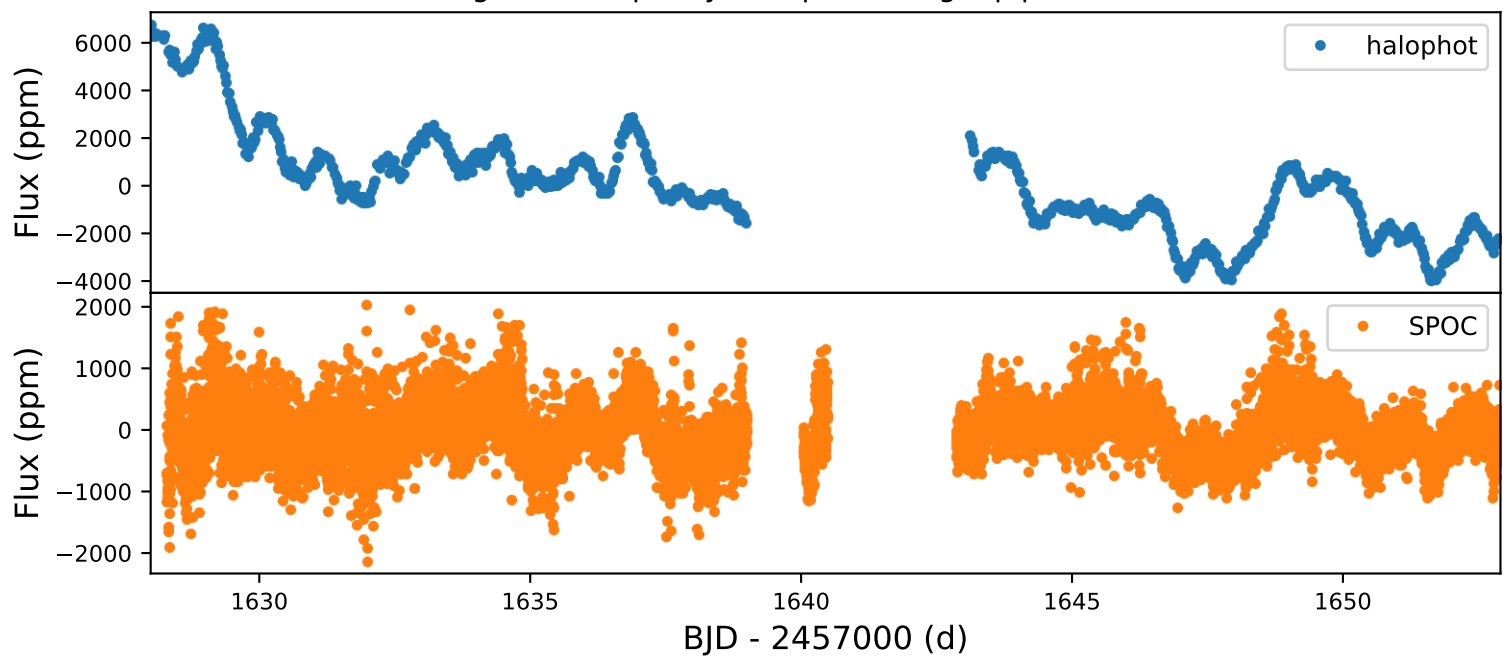

## Amplitude Spectrum

# $\theta$ Sco (Sargas) - Sector 12

Light curve quality: halophot = high, pipeline = low

# $\theta$ Sco (Sargas) - Sector 39

Light curve quality: halophot = high, pipeline = low
