

γ Crv (Gienah) - all sectors

B8IIIpHgMn, V = 2.58, variability class: Rot, high-pass filter width = 30 d

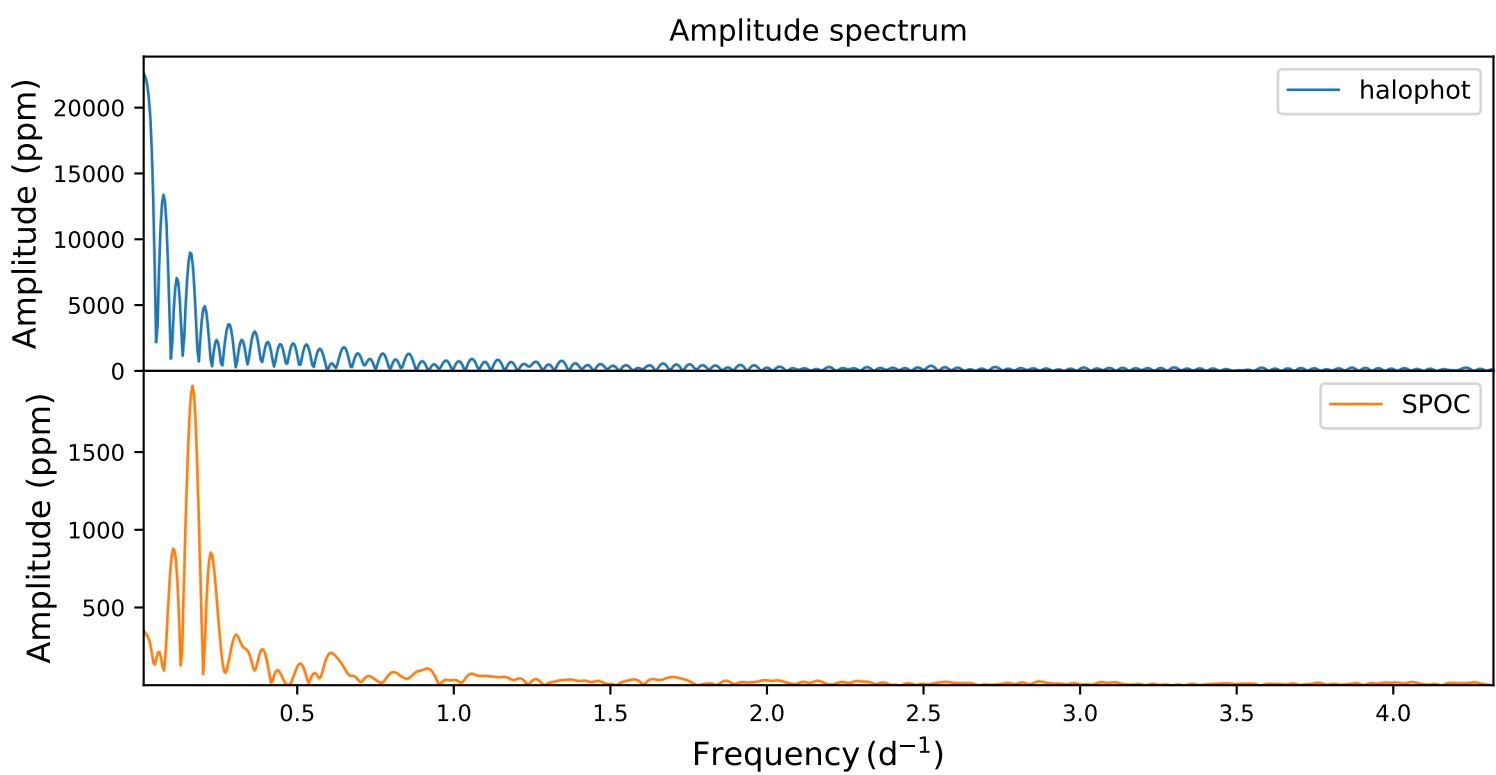

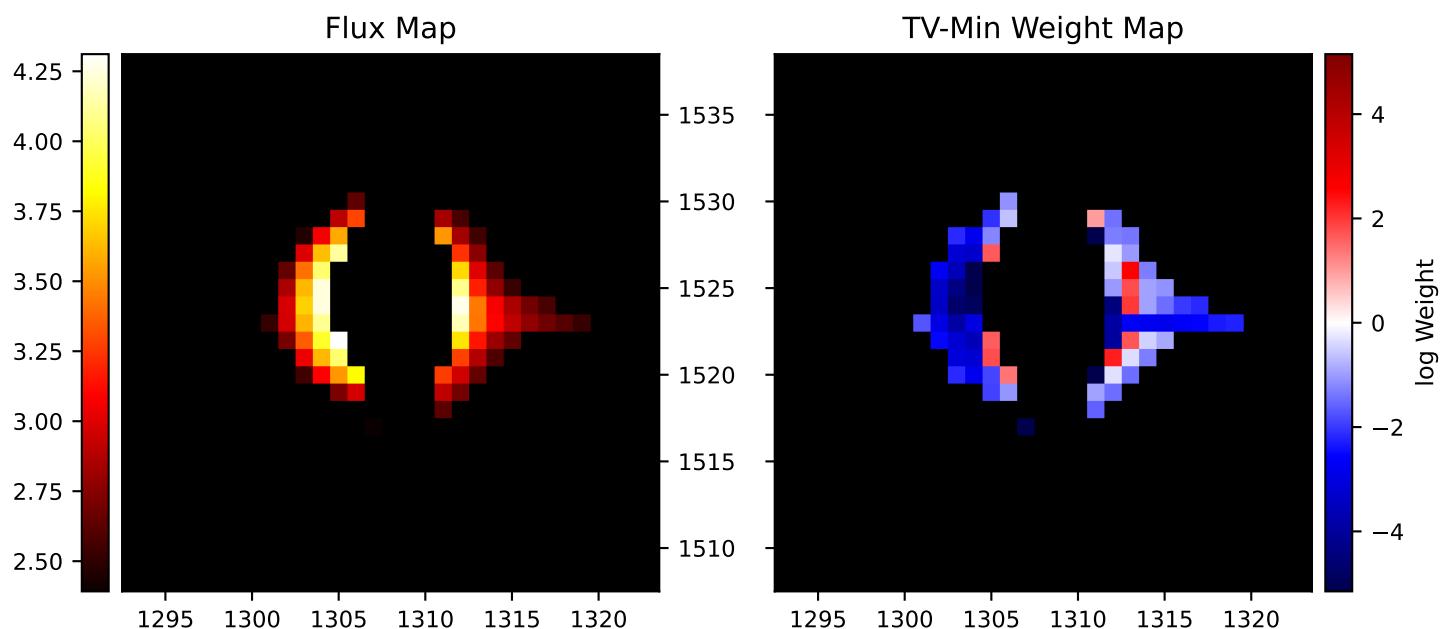

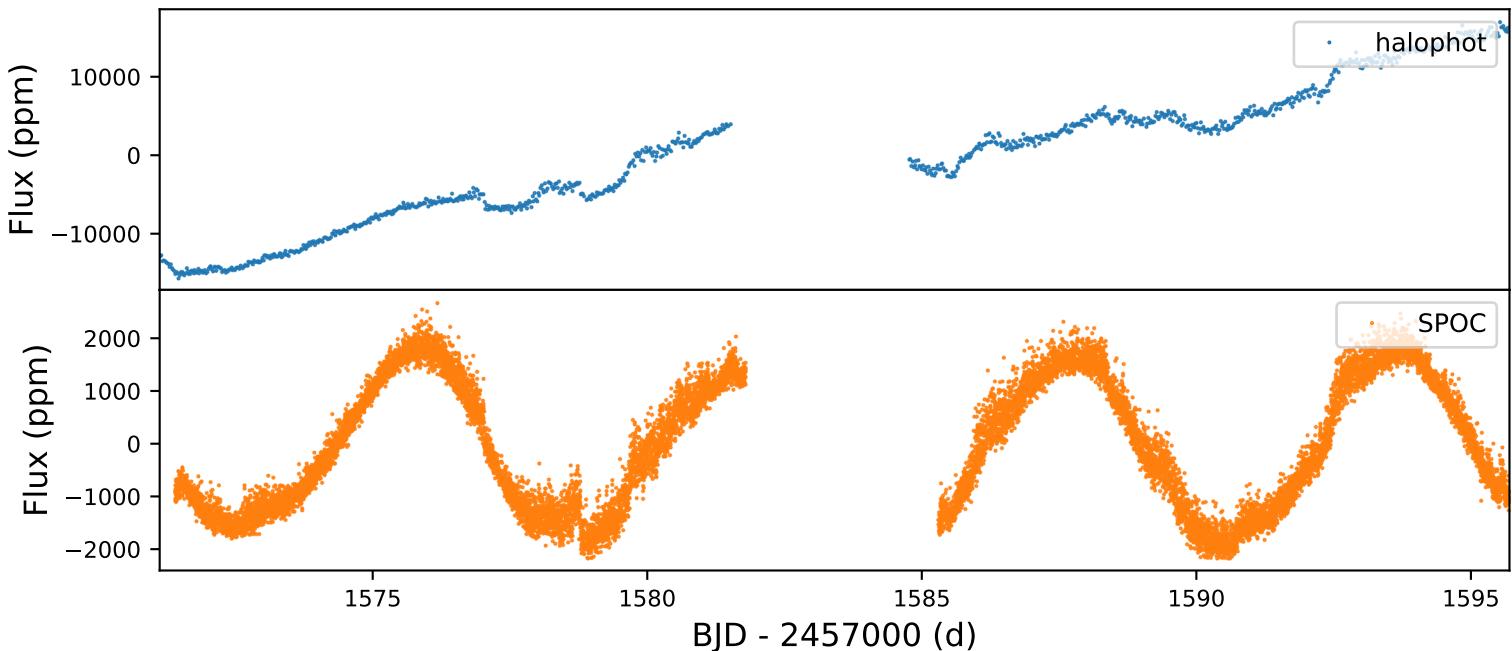

Amplitude Spectrum

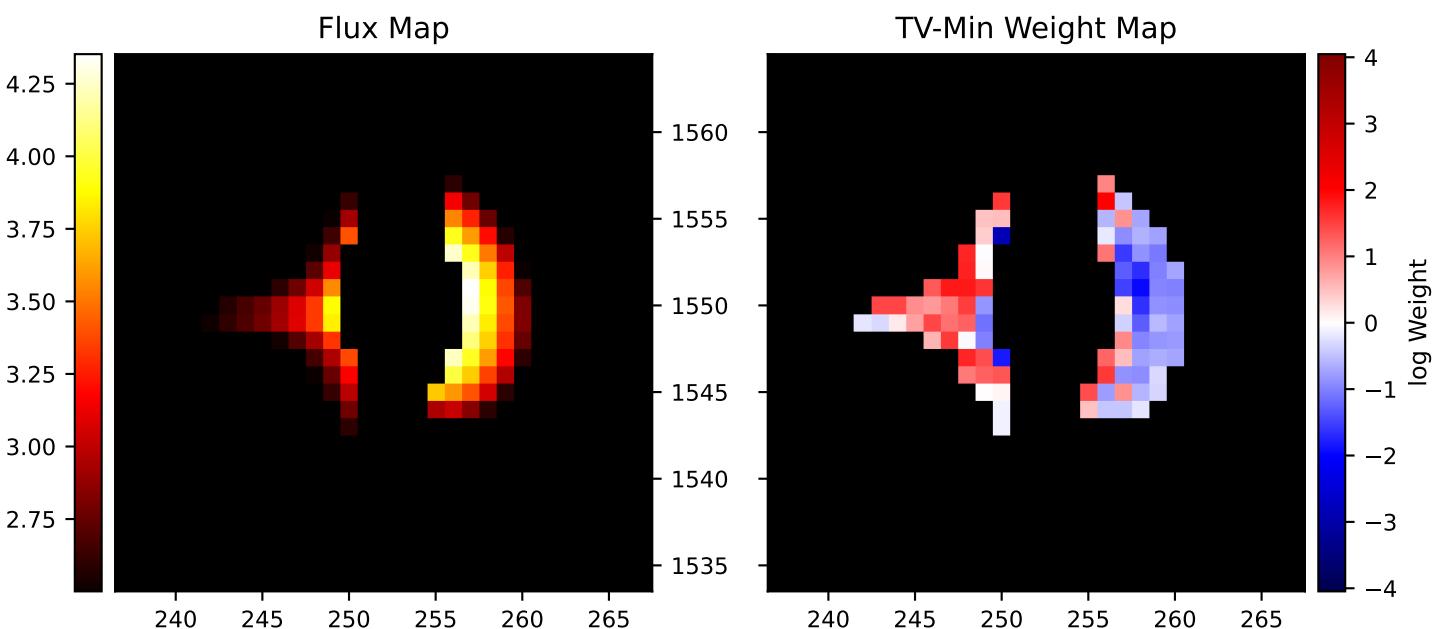

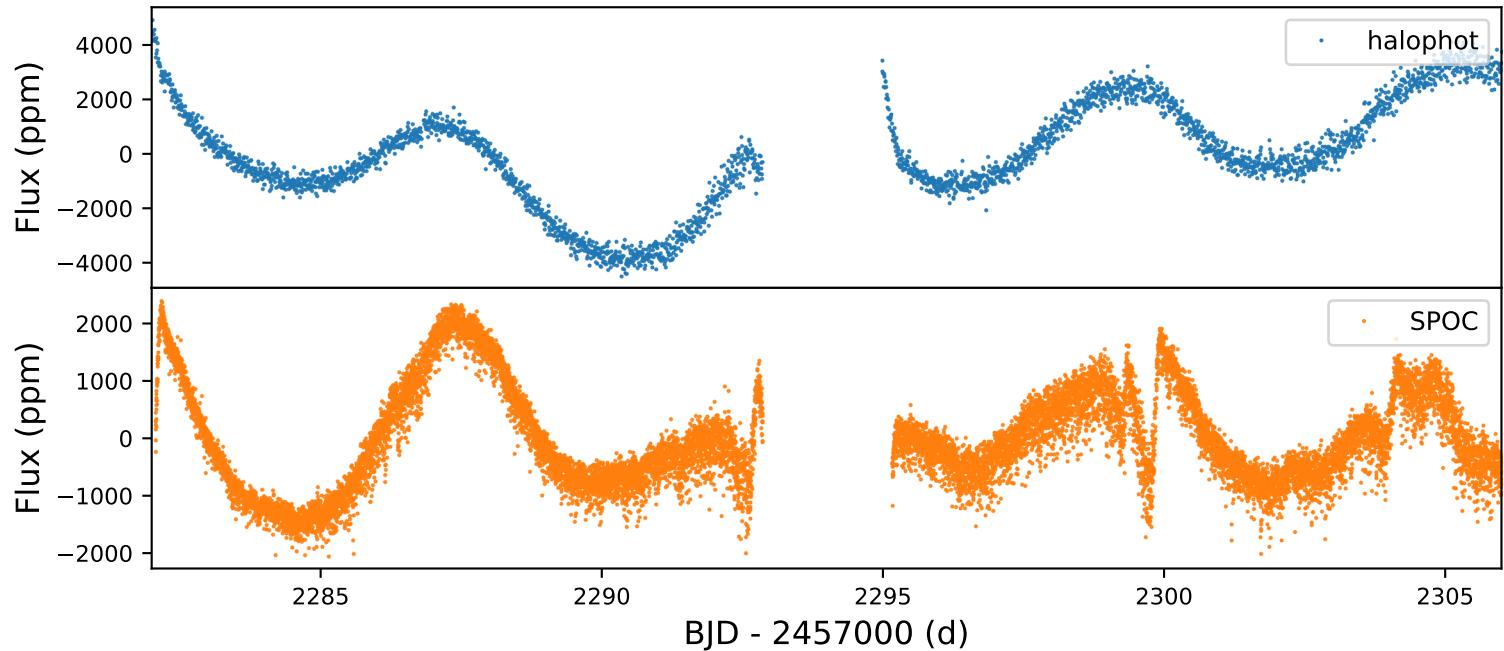

γ Crv (Gienah) - Sector 10

Light curve quality: halophot = low, pipeline = high

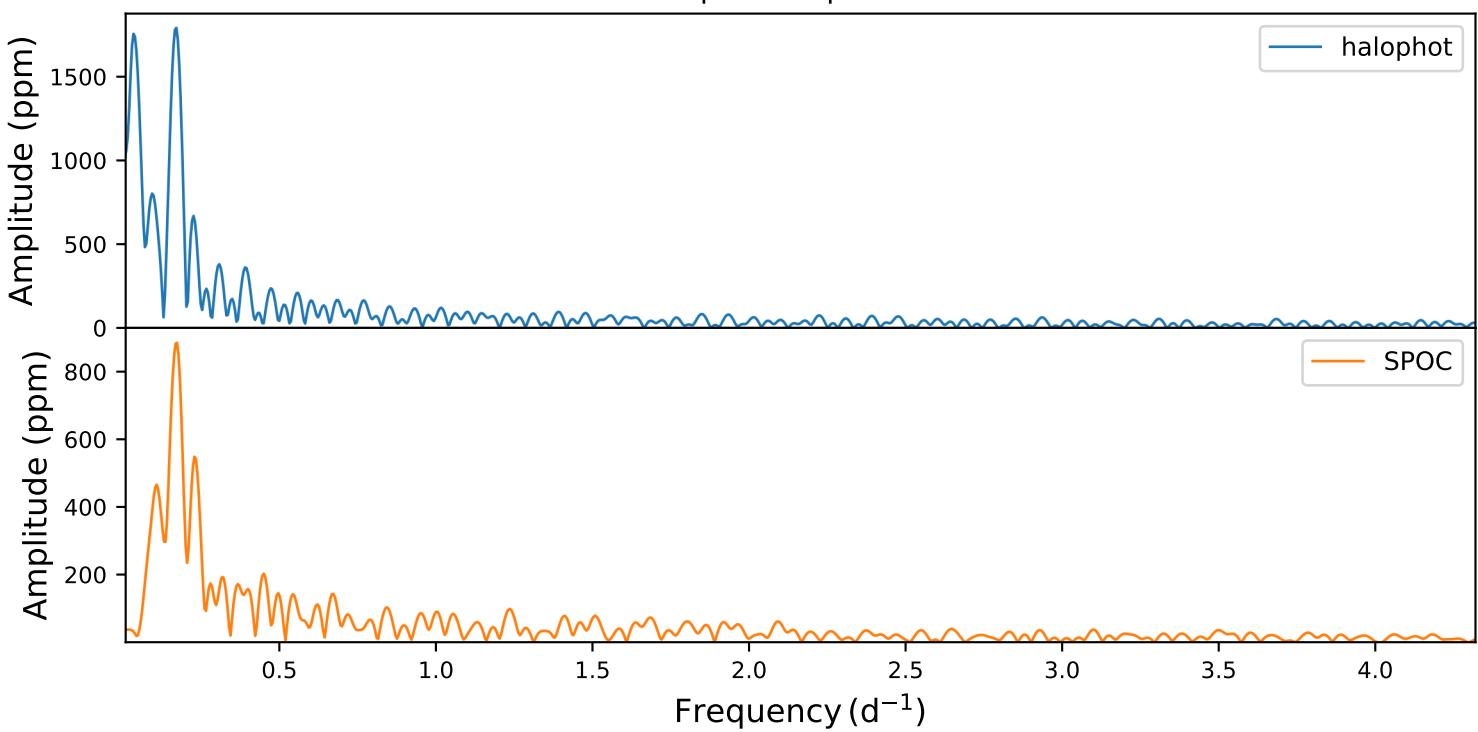

γ Crv (Gienah) - Sector 36

Light curve quality: halophot = high, pipeline = low

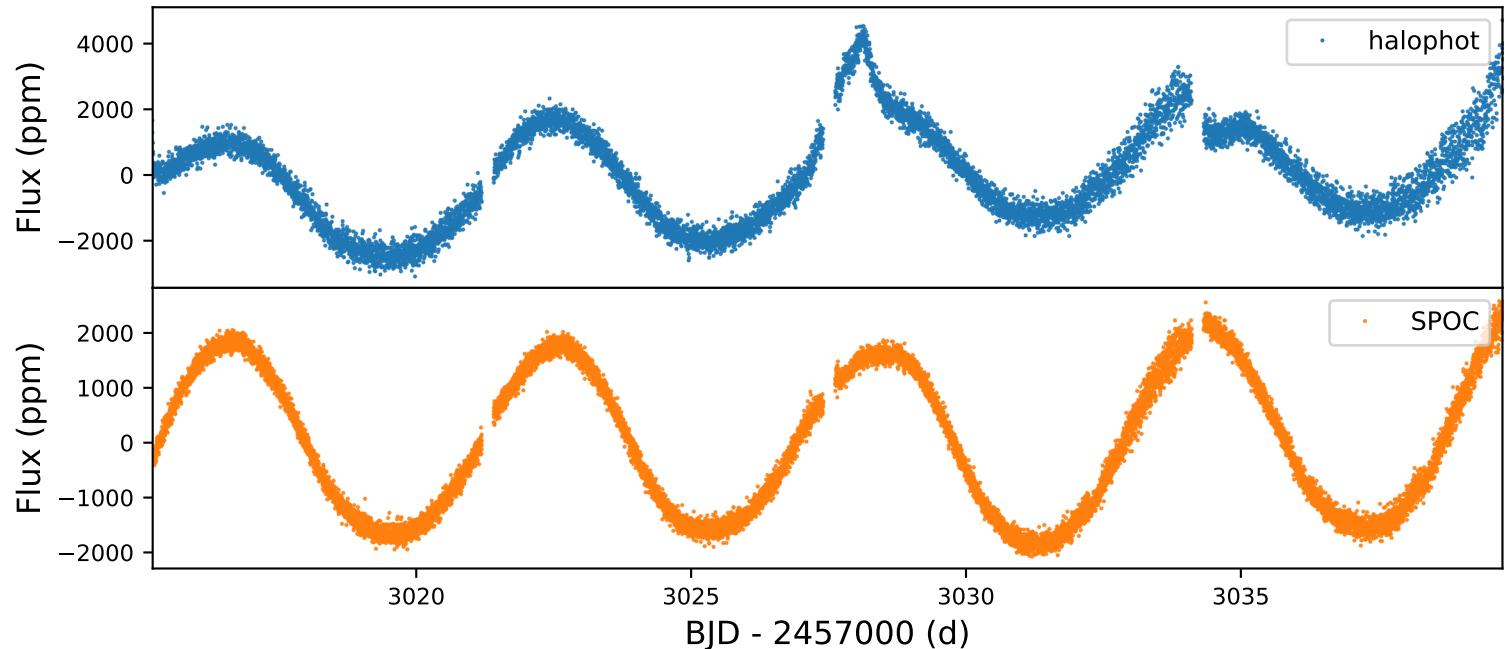

Amplitude spectrum

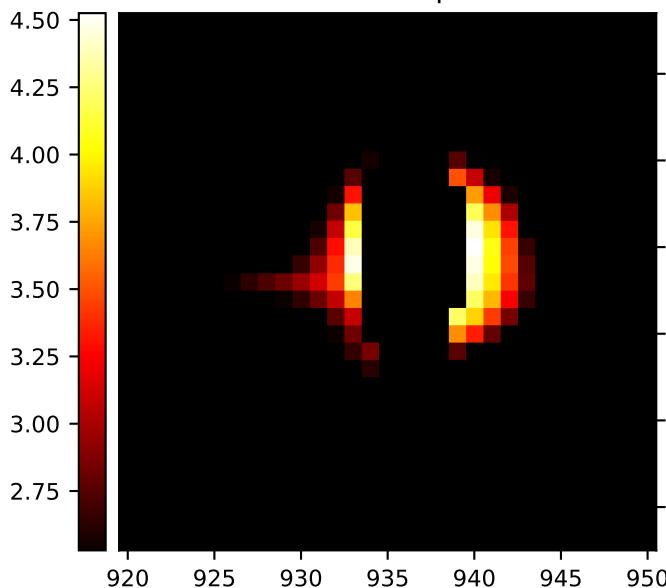

γ Crv (Gienah) - Sector 63

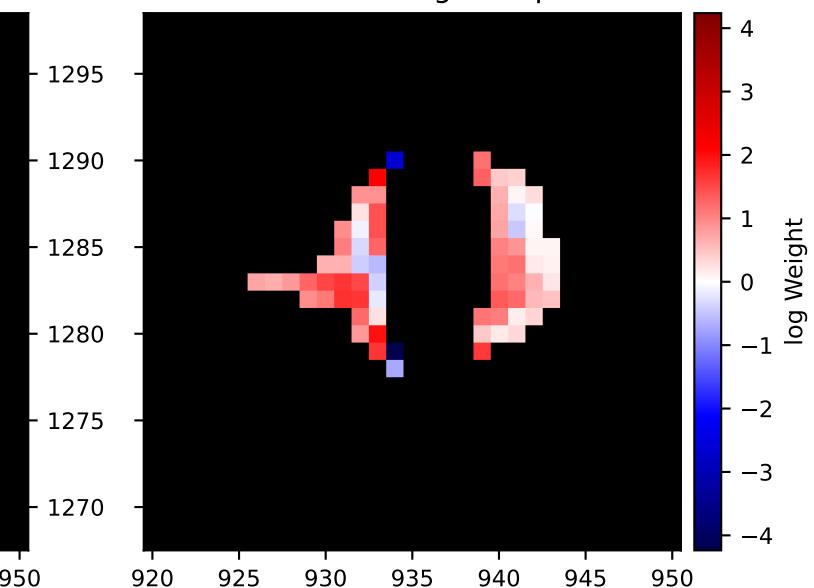

Light curve quality: halophot = low, pipeline = high

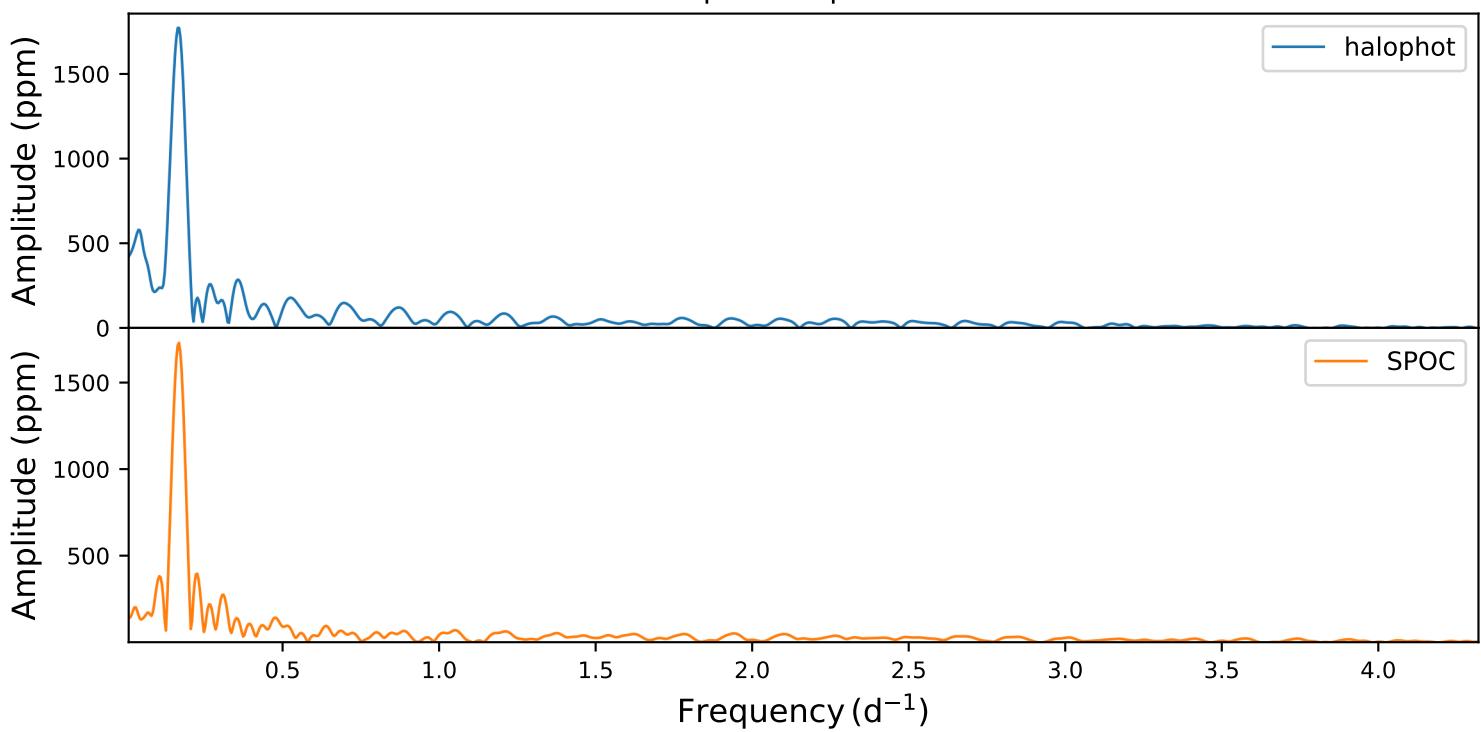

Flux Map

TV-Min Weight Map

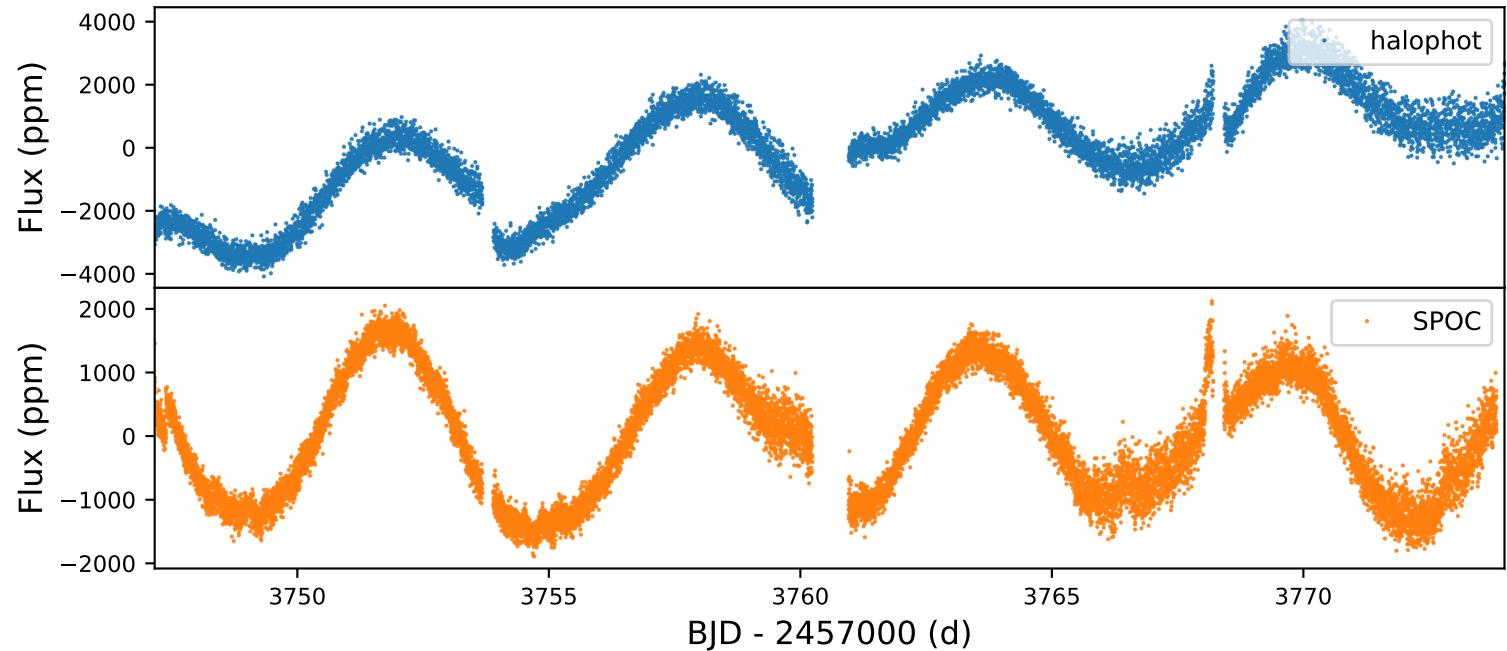

Amplitude spectrum

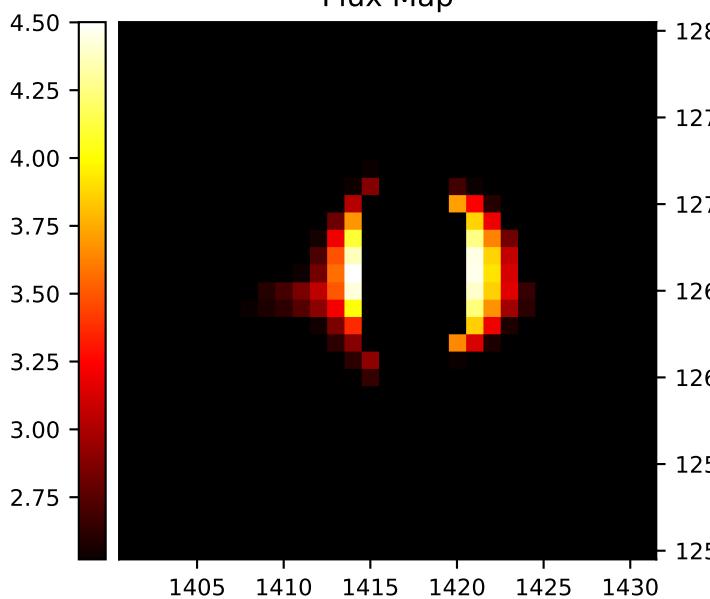

γ Crv (Gienah) - Sector 90

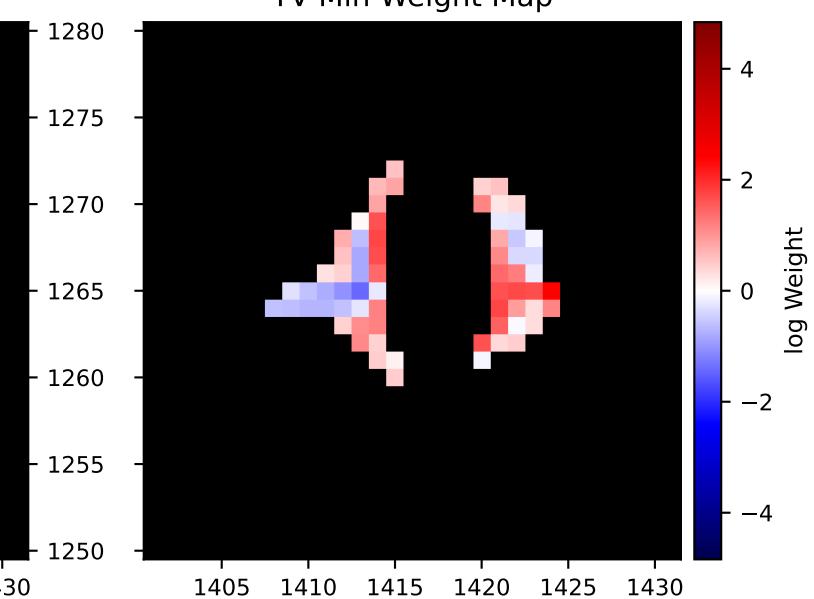

Light curve quality: halophot = low, pipeline = high
