

β Gru (Tiaki) - all sectors

M5III, $V = 2.07$, variability class: LPV, high-pass filter width = 30 d

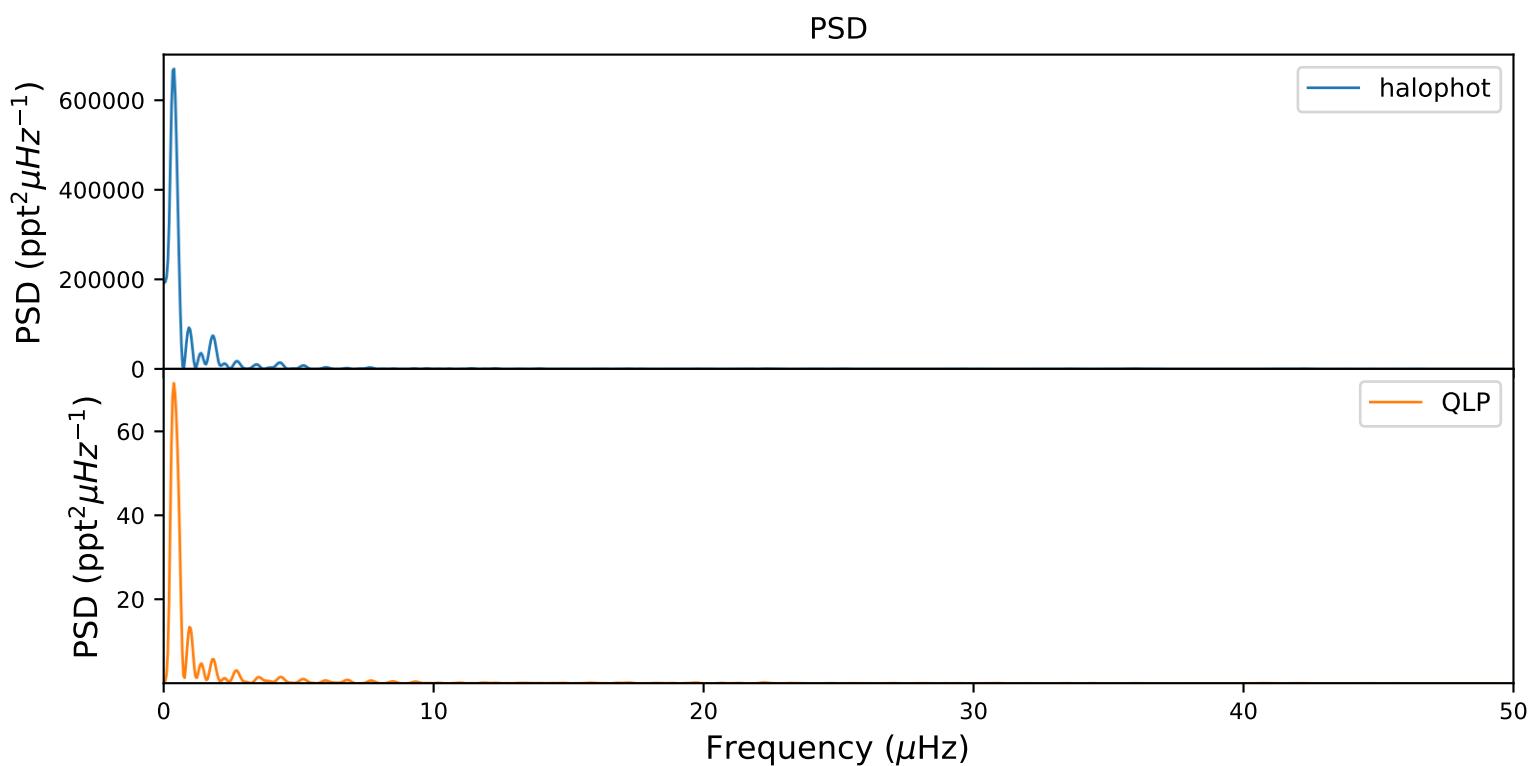

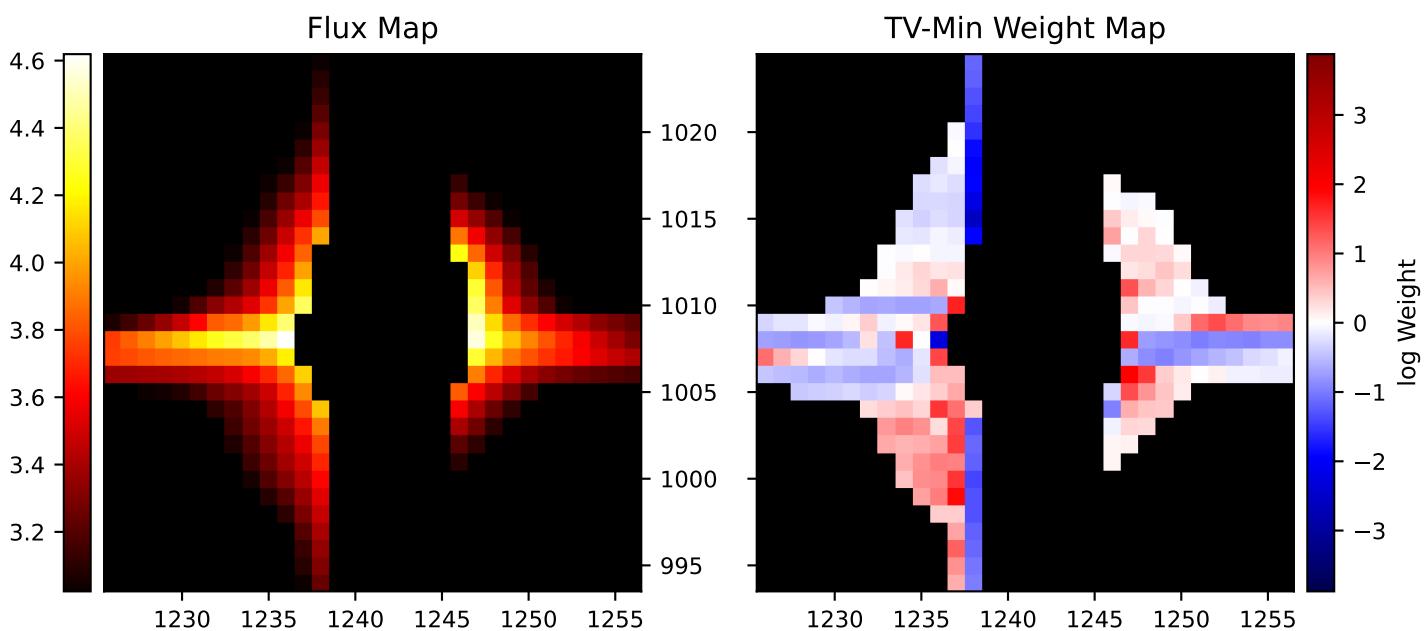

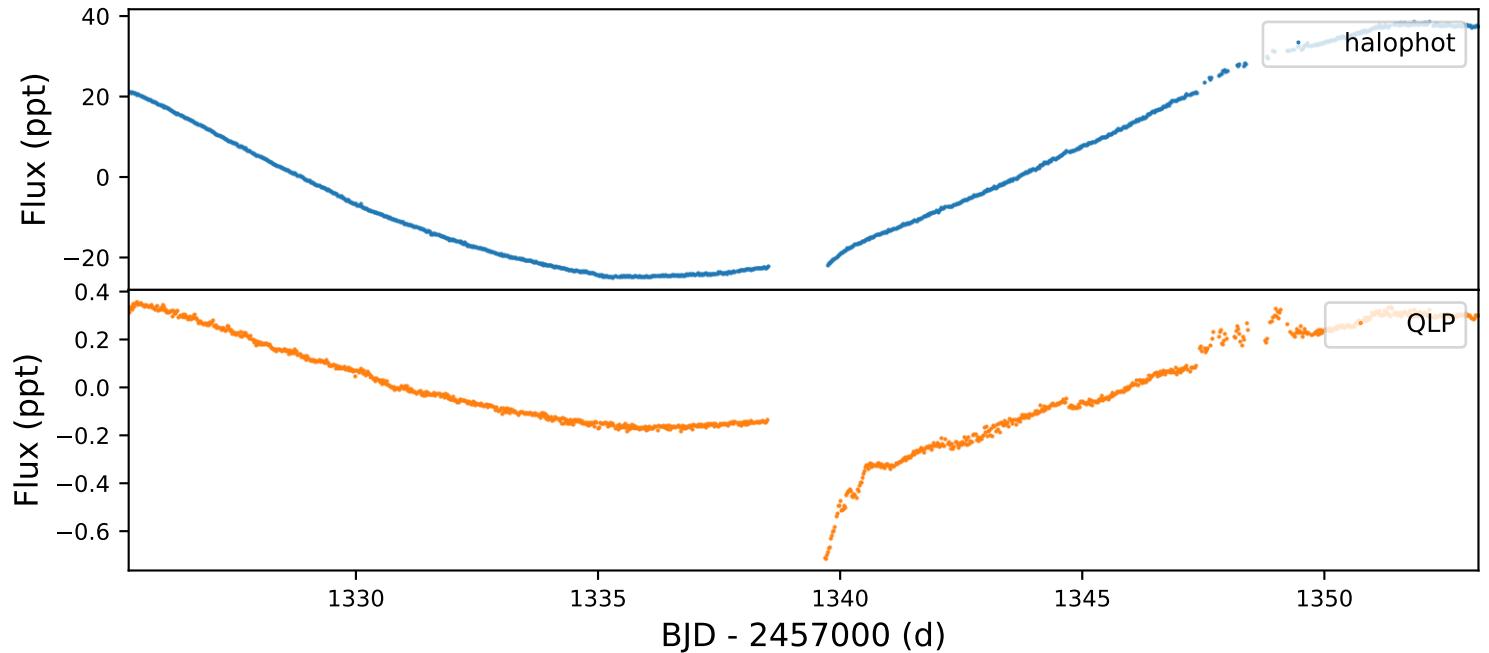

Power Spectral Density

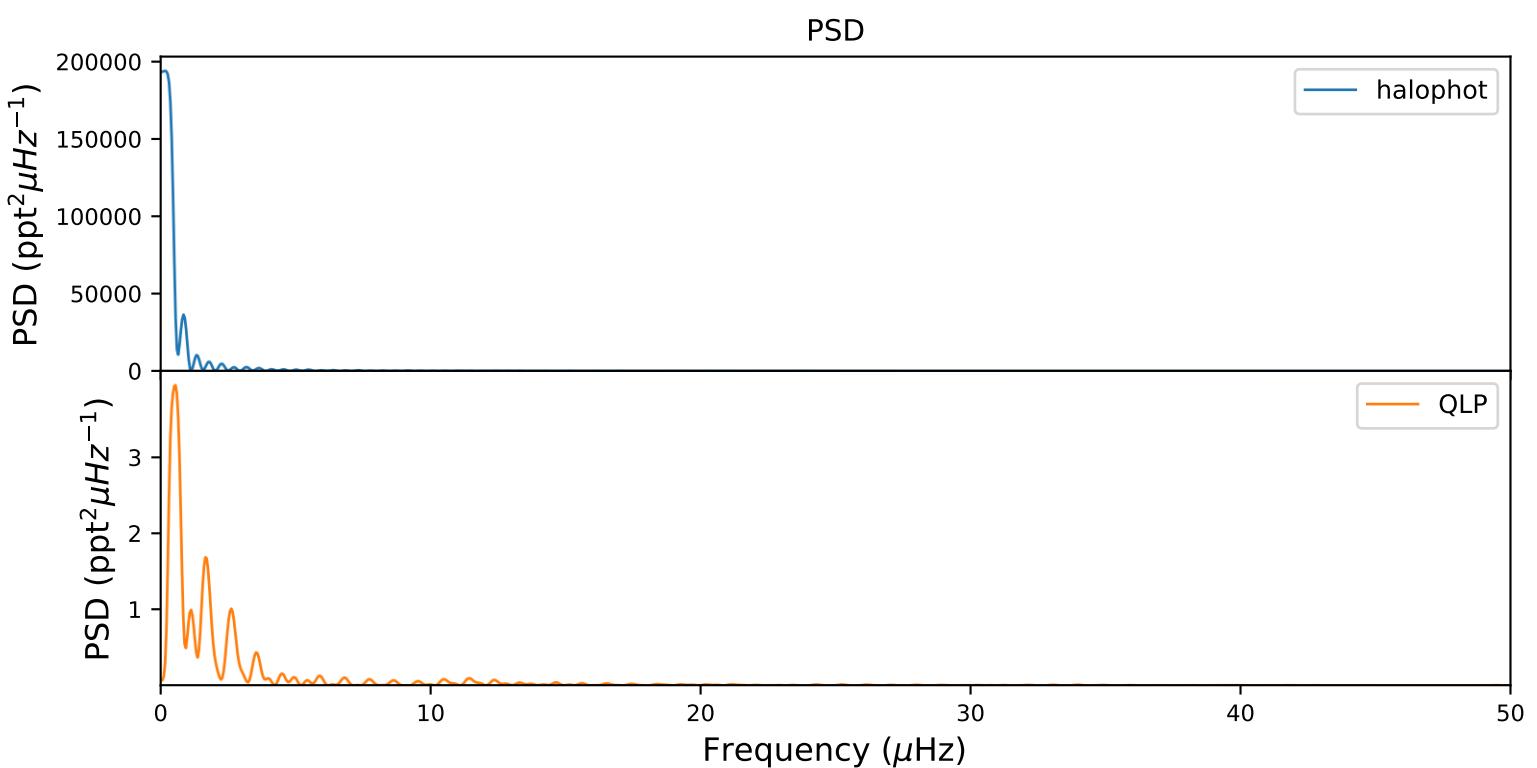

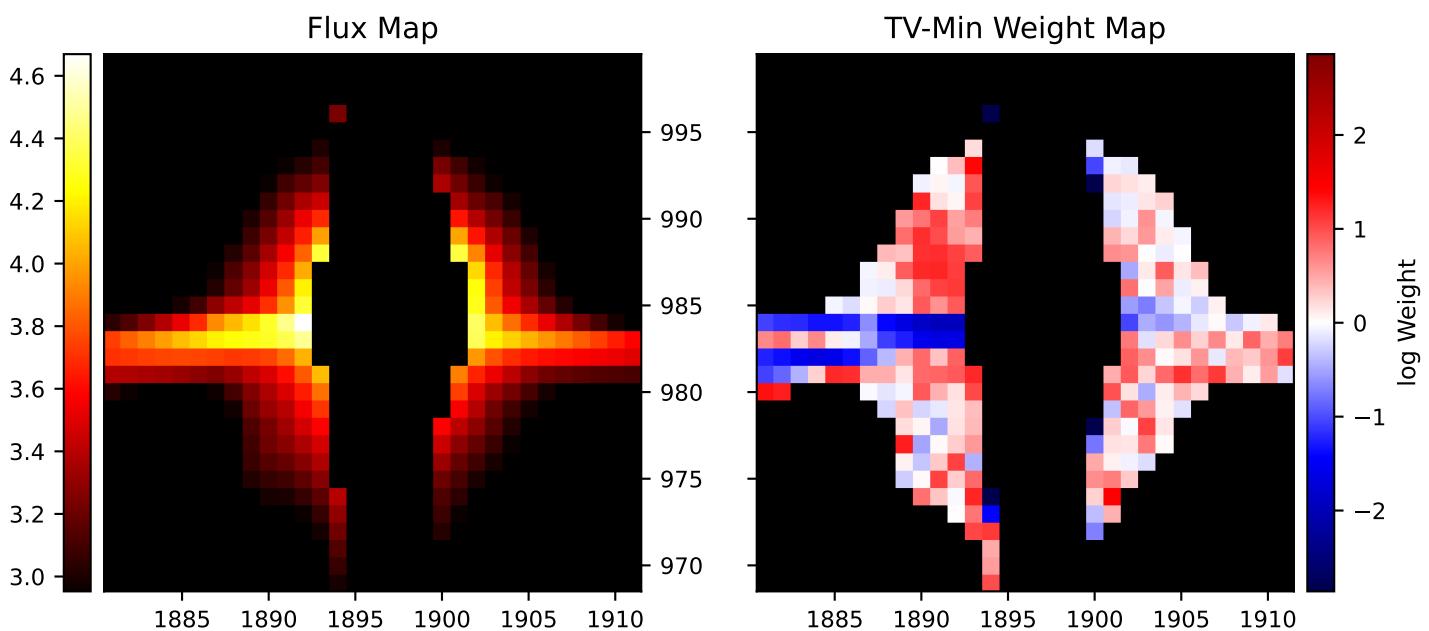

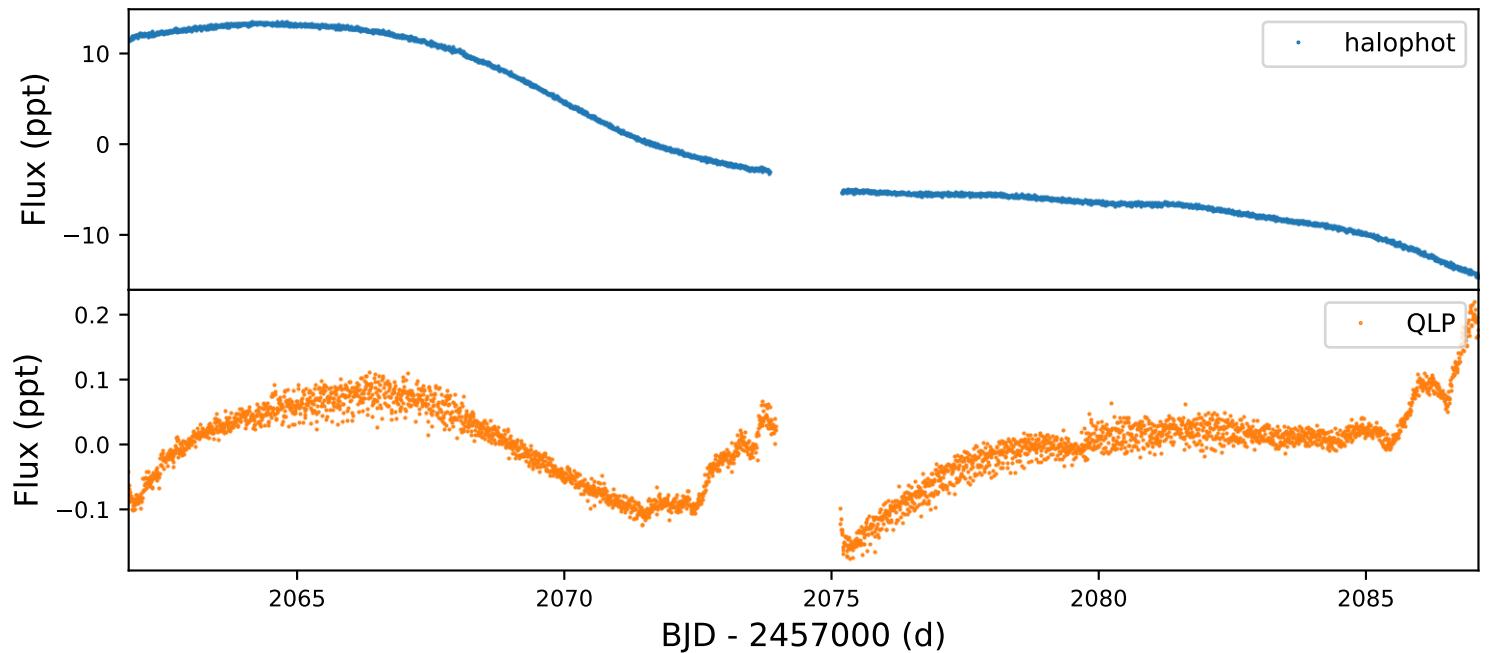

β Gru (Tiaki) - Sector 1

Light curve quality: halophot = high, pipeline = low

β Gru (Tiaki) - Sector 28

Light curve quality: halophot = high, pipeline = low

β Gru (Tiaki) - Sector 68

Light curve quality: halophot = high, pipeline = low
